Residential & Personal Solution Area

- PSTN Cordless Extension (One Number)
- Bandwidth on Demand (http://www.bod.telkomku.com)
- TV Video Communication (TV Video Call & Conference)
- IP Camera Video Surveillance based on IMS
- Self Provisioning PSTN Supplementary Service (https://www.telkomku.com)
- · Etc.

Enterprise Solution Area

- Centrex (Full IP-based solution & Backward compatible solution) (http://www.centrex.telkomku.com)
- Conference based on IMS
 - Unified Conference (http://www.conference.telkomku.com)
 - Personal Audio Conferece (http://www.roompi.telkomku.com)
- TelkomVote Real Time Data Display based on IN (http://www.rtdd.telkomku.com)
- IDN Lab API packages exposure (http://www.minisdp.telkomku.com)
- . Etc.

Internet on Demand:

Infrastructure Service by IIS

Deskripsi

Proposal pengembangan Softclient pada smartphone Android untuk memebrikan WOW experience sebagai sarana komunikasi (text, voice, video), address book, video conference, dll.

Objective

Memberikan WoW experience kepada pengunjung IDEX dalam melakukan komunikasi text, voice, dan video.

Impact

Dengan adanya softclient ini maka user dapat merasakan kemudahan dalam melakukan komunikasi tidak hanya dalam hal basic komunikasi tetapi juga tersedia fitur-fitur untuk unified communication.

DTP Live Digital Network Security Monitoring

Challenge: Mendesain sebuah experience beyond expectation untuk pengguna digital network security service & monitoring dengan target introduksi in 2017
